

Biblioburro- Giving the Gift of Reading

 Reading has a huge impact on both your lives and the lives of others around the world. You have noticed that not all classrooms are created equal. Biblioburro shares his library books with students who don't normally have access to them. Inspired by Luis Soriano and his burro Alfa, you want to give the gift of reading to students in a classroom different from yours. You will create a simple children's book (concept book) to give to a Kindergarten student living in Costa Rica.

Topics:

You can select a theme based on the following list of choices (remember that the book is for a Kindergarten student!):

- Colors
- Numbers
- Body parts
- Animals
- Classroom materials
- Family
- Free choice (see your teacher for approval)

Creating Your Book

- ★ You will work in pairs to create your book. **Every student** must participate in the actual writing process.
- ★ You can create your children's book by hand or using a computer.
- ★ Your book must be based on words that you have already learned. "¿Cómo se dice?" and Google Translate are not allowed. (Use words from elementary school, your notebook and folder, posted in the classroom, etc.)
- ★ You must have your writing template checked by your teacher before actually creating your book.
