

PEP Brainstorm

We know you've been considering and/or brainstorming about several topics which you may be interested in pursuing on a deeper level. Perhaps you have thought of a product you would like to make. Fill in the attached templates with information regarding three possible topics.

Open Ended, Driving question(s):

How are modern planes different from older models of airplanes? What major changes were made in the field of aviation over time?

Your interest or personal connection to the topic:

My uncle is a pilot, and I have always wanted to know more about what it takes to be a pilot.

Learning: What do know already and what do you hope to learn and accomplish?

Possible Products:

Build one or several models of different types of airplanes. Maybe a model of the first plane and a model of a commercial airliner today to demonstrate differences. Or I could create a flight simulator video.

Materials needed:

Idea #1: _____

Open Ended, Driving question(s):

Your interest or personal connection to the topic:

Learning: What do you KNOW and what do you still need to LEARN?

Possible Products:

Materials:

Idea #2: _____

Open Ended, Driving question(s):

Your interest or personal connection to the topic:

Learning: What do you KNOW and what do you still need to LEARN?
